FOREIGN ANCHANGE

Ist and lack of outside demand favored this attitude on the part of traders, and the encouraging inferences drawn from the weekly reviews of the mercantile acceptates were unnoticed. Prospects of continued higher rates of money and reports of the probability of further dividens reductions were advanced as reasons for selling and the reaction became more general in the late trading. The leading was heavy.

Where Would You Go to Find the Equal of Cadillac Value?

. Perhaps the greatest single tribute that is paid the Cadillac. is the indifference of its owners to the appeal of other cars struggling for a share of Cadillac preference.

Year after year, for ten years, eager salesmanship has been centred and concentrated upon this effort to divert the Cadillac owner from his allegiance,

Year after year Cadillac owners have remained indifferent; and year after year their number has increased.

This could not be so, of course, but for the positive conviction of the Cadillac owner that it would be impossible for him to find a car at once so superbly smooth and so free from the need of adjustment, overhauling and repair.

He believes—as we know—that these qualities are the fruit of such years of organization and striving after perfection as only the Cadillac has enjoyed.

He believes that this sort of continuous satisfaction, freedom from care, cost and worry, is the one and only thing that spells motor car value.

If he were offered-as no doubt he frequently is offered-the most lavish sort of inducement, he would still consider it bad business to relinquish the certainty the Cadillac alone can give him.
